

WEIGH SAFE RETURN INSTRUCTIONS

Dear **Weigh Safe** Customer,

In the case you are returning your purchase to **Weigh Safe** for an exchange or refund, please ensure to package unit according to the instructions provided below.

Returning Unit in Original Packaging

**If the unit you are returning includes a 4 or 6 inch drawbar, follow the reference image provided in exhibit A. If your unit includes a 8 or 10 inch drawbar, reference exhibit B.*

1. Place draw bar into box with the drop lining the length of the box.
2. Insert tow ball into slider and secure with ball pin.
3. Place slider into insert.
4. Wrap tow ball and place in vacant slot.
5. Place slider and tow ball into box.
6. Place lock accessory box as referenced in exhibit A or B to fully secure components.

Returning Unit Without Original Packaging

If you have disregarded the original packaging for your return, please ensure to carefully wrap each component individually before placing back into box.

*Any component damaged upon delivery to **Weigh Safe** may be subject to a **30%** restocking fee.*
